

Proven Winner's Bench Set B Assembly Instructions

Kit Includes:

2-B3 36"x92" benches with 2-B3G23 23"Hx24"W legs

1-B6EC 72" end cap bench with 1-G23 leg set 23"Hx36"W

1-L6ECA 72" lattice with 2 angular feet

1-TR4 20"x46" table with 1-TG17 17" legs

8-3" screws

Tools Needed:

1/2" socket ratchet

Phillips head and square head screwdriver bit

Step 1: First consider having all wood surfaces finished with 2 coats of deck stain before assembly. See instructions included with shipping documents attached to your pallet.

Step 2: Separate the benches, tables and legs. Place correct legs with corresponding bench and table. Tilt the bench on edge and place the leg in the channel so the leg cross piece rests against the underside of the bench (not like in the photo) Tighten the lag bolts until firm. **Do not tighten lag bolts all the way in.**

Step 3: Place B3 benches side by side in the desired location.

Step 4: Place the end cap bench across the end as shown and add the table on top.

Step 5: Place the lattice at rear end of the table. The lattice stands in the angled feet. Screw the feet to the table and to the lattice. Part of the feet may overhang the back of the table. They may be sawn off.

Step 6: Add your Proven Winner's bench tape and signs. Your display is now ready for your plant material.
