

Proven Winner's Over Aisle Arbor with Bench & Table Set Assembly Instructions

Kit Includes:

- 2-B3 36"x92" bench with 23"Hx24"W legs (B3G23)
- 2-B3 36"x92" bench with 4"x4" cut out corners for arbor also 23"Hx24"W legs (B3G23)
- 2-B6EC 72" wide end cap bench with 23"Hx36"W legs (G23)
- 2-B3EC 36" wide end cap bench table with 17" legs (TG17)
- 2-TR8 20"x 92" tables with 17" legs (TG17)
- 2-L6ECA Lattice with feet
- Lag bolts and washers

Tools Needed:

- Power screwdriver with Phillips head & square head bits
- 1/2" Socket ratchet

Step 1: First consider having all wood surfaces finished with a deck stain before assembly. See instructions included with your shipping documents attached to the pallet.

Step 2: Separate benches, tables and legs. Place correct legs with correct bench and table. Tilt the table on edge. Place the legs into the channel so leg cross piece rests against underside of the bench. **(not like in photo)**. Tighten lag bolts until firm. **Do not drive lags all the way.**

Step 3: Place two 3 benches with cutout corners across from each other exactly 63" apart in your desired location.

Step : Place B3 bench beside these on the side away from cut out holes.

Step 4: Place end cap benches on ends as shown. Add tables on top.

Step 5 Arbor Assembly: Review A1 Arbor assembly instruction sheet that is packed with the hardware attached to the arbor pieces. Keep in mind your arbor is going over the aisle and not over the bench. **Cross brace B must face inside over the bench and away from the arbor that will be over the aisle.**

Step 6: Add the lattice to each bench as the final step. The lattice feet **will not** work well on the end of the bench with an arbor leg there. It is easier to use one foot on one side and screw the lattice directly to the arbor post on the other.

Step 7: Add your Proven Winner's bench tape and signage. Your display is ready for your plant and pottery material.
